

# Bio-Odour Control

- **INDUSTRIAL ODOURS AND WASTE**
- **A blend of natural odour reducing agents.**
- **Rapidly removes organic compounds and odours**
- **Environmentally friendly**

**Bio Odour Control** is a non toxic blend of biodegradable natural active agents. Absorbs the odour and breaks down the compounds.

**Bio Odour Control** will also control/destroy gram negative bacteria ie. Salmonella. A, Staphylococcus Aureus, Pseudomonas Aeruginosa.

## Application:

**Treat large volume of waste:** Dilute Concentrate 4-1 in water and add 1 litre of the mix to approximately 10/50,000 litres of slurry/waste.

**Small scale application** add 30 mls. conc. to 1 lt of water and apply using a watering can or pump spray for sheds, cages, bins, traps drains etc.

**To spray a larger area:** wheelie bins/food waste, compost etc use 30 mls concentrate of product per 1 litre of water.

## Suitable for the following Locations:

- Cattle slurry pits, Baling stations,
- Skips, food processing factories,
- House hold bins,
- Mobile toilets,
- Sewage holding septic tanks,
- 
- Landfills,
- Wet scrubbers, Chicken sheds/cages,
- Slurry water lagoons,
- Sewage sludge,
- Industrial Effluents and Landfill sites,
- Air ducts.
