

# EcoSan Sanitiser

## ECOSAN PREVENTS WEILS DISEASE

**Bactericidal -Virucidal -Mycobactericidal-Fungicidal-Sporicidal for use  
as a general disinfectant**

- **Leptospirosis is the most widespread bacterial infection in the world,**
- **An infection by the Leptospirosis bacterium can cause Weil's disease.**
- **Rat populations exist near watercourses and their urine can easily pass into these systems, making wastewater treatment plants, wet wells, sewer lines and pumping stations high risk areas.**
- **Other areas at some risk include baling stations, recycling stations, landfills, railway marshalling yards and even farms and abattoirs.**
- **Eco-San kills the bacteria which causes Weil's disease within five minutes! USE at 200-1**

**Rate of use 200-1 dilution available in 5 ltr and 20 ltr drums**

### **INDEPENDANTLY TESTED & APPROVED BY:**

**1. DEPARTMENT OF MARINE SANITIZER**

**Product Eco-San**

**0.5% Solution, 5 Minutes Contact Time.**
